Testimonial

"I have been an insurance advisor for the last 5 years and gone through many YouTube videos and week-end classes. But that was all theory. Thanks to you, you taught me the practical way, which helped me a lot.

Now I can give better advice to my clients. Best wishes."

[Mr. Abhimanyu \(Insurance Advisor\) – HDFC Life, Gudgaon](#)

"I would strongly suggest the NISM 15 mock test to anyone taking the Research Analyst exam. The test assisted me in estimating my knowledge of the syllabus and also helped me locate areas where I was weak. I enjoyed the format of the test, which provided a clear idea of what would be on the test. The feedback and solutions were exhaustive, bringing home tremendous clarity about how to tackle complicated research topics."

[Ms.Ritika Kapoor \(Financial Research Associate\) – Mumbai](#)

"I am a housewife and retail (small) investor and have limited money. Thanks to your free course offer, because in a limited amount, either I can buy an expensive online course or invest. Thank you for teaching me the difference between money and wealth."

[Mrs. Pooja \(House Wife\) - Vadodara](#)

"After trying out a few mock tests for NISM 8, I can say that this one was the most comprehensive. It made me familiar with the exam pattern, and the questions were highly similar to what I had faced in the actual exam. I was much more relaxed when appearing for the actual test due to the preparation this mock test gave me. It's well worth spending time on."

Mr. Vijay Kumar (Derivatives Analyst) – Pune

"Thank you very much. I am from a non-finance background and have zero knowledge of the stock market, but what a great way you taught me theory and practical and the importance of financial literacy. Now I am a software developer and a certified stock market analyst."

Mr. Rahul (Software Developer) – New Delhi

"The NISM VA Mutual Fund mock test was a great study material for my exam. It provided me with a thorough overview of all the concepts, from the basics of mutual funds to advanced ones. The questions were extremely relevant to the real exam, and the rationale for every answer was extremely detailed, enabling me to understand tough concepts. Due to the mock test, I was confident on the exam day and easily cleared it."

Mr. Prasant Jain (Mutual Fund Advisor) – Mumbai
